## Introduction

TO ONE whose ancestry goes back to those who went "down to the sea in ships," there is always a lure and a fascination about the sea and the old seaport towns, especially if the town be in old New England. Consequently those were interesting days spent last summer in the Essex Institute and Peabody Museum, Salem, searching through old ships' logs, time-worn newspapers, contemporaneous journals, books of shipping news and nautical history, to find material to supplement and form a background for this diary of a seafaring relative, one Joseph Valpey. The manuscript was given several years ago to the writer's father, Lewis Nelson Valpey, by his aunt, Mrs. Mchitable Valpey Atwill, of Arlington, Massachusetts, and after his death was purchased by Mr. C. M. Burton. L. N. Valpey's father, Joseph Hodges Valpey, once of Lynn, but for the last thirty years of his life a resident of Detroit, Michigan, was a namesake and nephew of the diarist.

In the voluminous diary of William Bentley, pastor of the East Church, Salem, are to be found references to the Valpey family, with frequent allusions to their seemingly constant anxiety for fathers and sons at sea, for whom prayer was frequently requested of the church.

On June 24, 1792, there was an entry in the register of the East Church of the baptism of Joseph Valpey, Jr., aged three days, son of Joseph and Mehitable Murray Valpey. A note in the diary of the same Pastor Bentley, who apparently recorded the minutest details in the lives of his parishioners, mentions the fact that the father was at sea at the time of this child's birth. Slight wonder that he, too, followed the seas.

Joseph Valpey, Sr., is mentioned by Bowdoin B. Crowninshield in his article, *An account of the private armed ship "Amer-*

*ica*" of *Salem*, published in Volume 37 of the Historical Collections of the Essex Institute. The entry reads as follows:

"Nov. 24 at 7:30 A. M. saw a sail bearing S. W. by S. steering to the E. S. E. Made all necessary sail in chase.

'At 9 A. M. brought her to and boarded her: she proved to be the British ship *Hope* from St. Thomas for Glasgow, 45 days out, Gilbert Clemons master: Full Cargo: Sugar and Rum. He informed us that he had left the fleet 4 days before, consisting of thirty-two sail of merchantmen under the convoy of the *Ring Dove*, Sloop of war.' This was the sort of dove-cote in which such a hawk as the *America* produced the wildest terror. 'Put on board Joseph Valpey, prize master and twelve men: took several small articles and the prisoners from her and ordered her to *America*. Lat. 46° 35'.

The 'small articles' referred to usually included quadrant, spyglass, and samples of cargo and sometimes small arms and specie, but never the personal property of the prisoners."

Acknowledgment is gratefully made to Miss Jennie Valpey and Mr. Fred Valpey of Lynn and Mrs. Annie Manwell of Arlington, Massachusetts, for information regarding family history and the loan of letters written by Joseph Valpey, Jr., and other historical data. Two of the letters are printed here; the others were written home during his earlier voyages to Smyrna, Malta, and other eastern Mediterranean ports. They are all addressed to his parents and reveal a touching family affection and the longings of a homesick boy for home and loved ones. In one letter reference is made to the ravages of Napoleon Bonaparte's ships on the Mediterranean, and to the hazards of the deep in those troublous times.

Joseph Valpey, Sr., was part owner of the privateer schooner "*Herald*" of New York, commanded by Capt. John Miller, which may have been one reason that his son, Joseph, shipped on that particular vessel after several other voyages on various merchant ships. It appears from one of the old letters which are herewith printed, that he reached his decision

to board a privateer only after considerable hesitation and mental struggle, but having once made up his mind, he was eager to be off.

The story of his sea experiences and of his life as a British prisoner of war are so vividly told by him in the following pages, that more need not be said by way of preface. The diary, however, leaves the reader wondering as to what came next. Old family records tell us that he died at sea, on his way home, on March 24, 1816, and was buried in Havana, Cuba. His diary came home to his sorrowing family in his sea chest with his other belongings. With all that it tells of his adventures and trying experiences on land and sea—experiences shared by many another homesick lad of those days—it is no wonder that the worn little volume was treasured by his family and handed down for coming generations to read.

\*The *Journal* of Joseph Valpey, Jr., came to the Burton Historical Collection unbound, a compact little book, which might easily have been slipped into the pocket of a greatcoat. Several of its leaves were quite badly torn, as will be seen from the frequent breaks in the narrative on this and following pages. The substance of the *Journal* was printed in the Boston Herald of March 9, 1902. This article has been mounted by a member of the family, in a booklet, on the first page of which, the same loving hand has copied the first page of the *Journal*, evidently before that page was so badly torn. By this means, several missing words have been supplied. To avoid the frequent repetition of the explanatory word "torn," omissions have been indicated by dots.

ters that i sent on From Charleston S C all went safe home— here prisoners was coming in dayly while a Great Number paid the debt of Nature and went to there Long home we Made this our home Until the twenty seventh when two hundred and Fifty of us was transported on Board of the Akbar Frigate for England here we was confin'd in her hole where we could have no Light nor Enjoy the Wholesome air but in darkness we Was Oblidged to Lay both' Day and Night for We had not Highth enough for to set on our Back Sides but to eat Drink and sleep we Must Lay too it i had been in this Situation but a few day's with my Fellow Prisoners when I was taken down Sick with a Slow Fever and in the Course of one week there was fifty Seven taken down with the same Deseas and every day there was More or Less paid the debt of Nature no Tender Mother for to Nurse them no Friends nor Relation to Mourn for them and no acquaintance for to Shed Tears When my Messmates would come and tell Me that a Nother was Just Launched to there Watery Tomb I did certainly Expect for to be the next But it pleased the Lord that I should Recover My Health again on the twenty seventh we Discovered the Land and on the twenty ninth We arived at Plymouth Eng<sup>d</sup>. as soon as we came to Anchor i had the Privalige of Purchasing some Bread Butter and Milk and Fruit Which finly Reviv'd Me on the thirty first of October we was Landed in plymouth and Marched to dartmoor it being about sixteen Miles in the Country and the Roads Exceeding bad and the Most was Without shoes or stockings and the Soldiers pricking us up with there Bayonets thus we poor half Starv'd prisoners was Marched in the Rain from seven in the Morning until half past Eight in the Evening without having one Morsel to eat and cast into a dark Cold and Wet Prison without having where with all to eat or rest our weary Limbs upon thus we Was Locked up for to spend a Cold and disagreeable Night in the Morning there Clerk Entered With a Band of soldiers for to take the highth's Complection's and where we was born and then turned us Into the Yard for to Receive hammocks beds and Blankets that was as full of Lice as the Devil is of Wickedness but howasever those did not frighten us after taking Breakfast I took a Walk round the Prison's and here i found our First prizes Crew that had been here three Months and I gave Samuel Lambert his Letter I also found here Confind in these prisons Four thousands and five Hundred American's for to Lement there dismal Situation and amongst them there was five hundred Salem Men this Was the first time that ever i found all Salem

together after dinner i thought on getting in to some prison for to hang up my Hammoc after walking round some time i took up my Lodgings in Number seven prison for to pass A Cold and tegeous Winter—Now i will give the discriptions of those prison's as Near as i can firstly—there is seven prison's that stands in a Circular form, each of them large enough for to Contain eighteen hundred Men, Number four or the Middle prison is for the Blacks in which there is Schools kept of all Descriptions such as Dancing Fencing Boxing and Music schools—Secondly—on the top of a Mountain where the Clouds ranges the ground these prison's are pitcht where it Must be on a very Clear day that we can see from one prison to the other, the First Month that I had the pleasure of being in these palaces we never had sight of the sun but three different times and nothing but a continual rain from the first of November to the first of January—Thirdly—these prison's is an Excilent school for all those that had Led an Irregular Life for all those that has been given to Drunkardness here before, they have time dayly for to Realise there past Conduct and to see the fruits of hard drinking for it Brings on all kinds of Bad Vices such as Idleness Lazyness Thieving and at Last the[y] Commit a Murder which puts an end to there Lives. Fourthly—to those that never knew the Value of Money will Learn by Living here how to be Saving and frugal for the time to Come, here they can see that some that has been saving and has had Money when they came into these prisons can with there scanty allowance and a Little Money Live very Comfortable, while those that had Money when they had there Liberty would stay on Shore Until every Cent was gone and then would be Oblidged for to put to sea again without a penny for to help them selves and then they would get Captured by there enemy and sent to this place and the first thing that they would do would be for to sell off what few Clothes they had and then they would be 'tempted by the help of the Devil for to steal from there Mess Mates and Fellow prisoner's and then there backs would be Brought to disgrace and there eyes open'd, then they would see wherein they had been wrong, thus we May see that a prison although it is a place of Confinment it is the best School that ever Man or Boy went into, if they will but give heade to what they hear and see—Fifthly a person in these prisons should take great Care of his health for in taking cold's it Creates a bad Cough and hoarsness and then if he goes into the Hospital he at first is put into a Cold Bath and then he is Bled as long as he has a drop of Blood in his Veins, I knew a Man that went into

the hospital with a Bad cold and he at the first Bleeding had two hundred and forty ounces of Blood taken from him, the doctors here Makes a practice of Bleeding a person as long as he has Breath to draw—

## of Dartmore Prison

1<sup>th</sup>

of dartmore prison I'll tel all I can  
Describe the condition of ten thousand men  
there manner of pastime and how they all are  
discribe these fine Buildings and how we all fare

2

on top of a mountain those prisons does stand  
A place pich<sup>t</sup> on purpose for tormenting man  
Where Frenchmen and yankey's together must stay  
Until the war's o'er or else run away

3

our manner of Living depend's very bad  
Not Grub half enough every Countenance sad  
Nor clothing sufficient to cover our skin  
And no more Indulgence we get from the King

4

Our manner of pastime its hard to Explain  
But Keeno and dice is our principal game  
While some set at drinking together they sing  
Bad luck to the prison short life to the King

6

Now place all together of what I relate  
And had I not Reason's for to god dam'n my fate  
But I bear it with patience and cheerfully sing  
Long life to our President and a curse on the King

## The Fruits of Gambling's

1

Come fellow prisoner's one and all  
To reason lend an ear  
To keep up Gambling as you do  
Your ruin'd men its Clear

2

For reason first should Beasly\* hear  
How we this money use'd  
He<sup>d</sup> say the prisoner's was to Blame  
they that the states abusd

3

The money that's sent was for intent  
To help us in this place  
Instead of which you all must see  
It clothes you in disgrace  
\*the Agent for Prisoner's

4

For should you ask for any more  
as each man ought to do  
Then would your Injured Country say  
No money more for you

5

For reason why when i advance  
To you this trifling sum  
You keep up gambling Night and day  
Which hurts you every one

6

Yet a few it help's—a little while  
But mark his Latter end  
His Bank get's broke, his dunnage sold  
This Man's without a Friend

7

Then stealing next is there intent  
Which often time's you see  
Then he seized up like any dog  
And flogged he must be

8

This story's told when he gets home  
Unto his Friend's or wife  
This man's dispised by them—he Loved  
Therefore he cannot value Life

9

To now avoid those Ill's i'v stated  
From Gambling now refrain  
Then you'll be helped and Respected  
Should you ever get home again

The author on Viewing his fellow prisoners hunting  
for Lice and Fleas Composed the following

1

In Yallow dress from head to foot  
Just like a swarm of Bee's  
From Morn to Night you'll see a sight  
of Hunting lice and flea's

2

They skip and crawl most ravingly  
And pass from man to man  
If they could speak—you'd hear them say  
Now catch me if you can

3

The other Morn as I walked out  
To take the pleasant Air  
I saw a Louse whose Magnitude  
With Horror he made me stare

4

Old Traffalgar he pind him fast  
And killed him for the Crime  
Saying Yesterday was your's my Louse  
But now the day is Mine

### A Song

From court to clown from beau<sup>x</sup> to Clown  
I dare say each one know's it  
Our Grub's too small for one and all  
And our Yankey face's show it.

#### Chorus

Yankey dudle dudle due  
Yankey dodle dandy,  
We'r place'd upon a swindging mount  
And to the Moon Quite Handy

#### 2

We'r plac'd upon a Mountain top  
Next Neighbours to the Moon sir  
We Yankey tars next to the Stars  
Expect to get there soon sir

#### 3

Then we'd Learn luner's perfect head  
And ascertain the true distance  
Should British tar's come to the stars  
We'll give them no Assistance

#### 4

Should we be ordered down again  
And to a Cartel going  
Then folk's would stare i do declair  
And say the Lad's look's knowing

#### 5

Then we shall tell them that we do  
Because we have lived high sir  
Had you been there I do declare  
A chance but you would have died

6

For cold and hungry—Naked too  
Each tar was all but Dying  
'till Ruben Beasly 'tother day  
He thought he<sup>d</sup> stop our Crying

7

But if our Congress hear's the fact  
Of our great mighty Income  
Then they will stare all with despair  
And say it was a too small sum

8

Then they'll curse Beasly in a Clinch  
And call him a dam'n Villen  
I'd do so too and so ought you  
For it ought to have been one Shilling

9

However lads we'll see it out  
Three Coppers come's quite handy O  
They'll get a pint of Beer my Boy's  
For Yankey dudle dandy O

And health with Jocund glee  
No Conjuror one would think could tell

## A Song

1

A dew to the shore's of Columbia  
Though distant ——— I still you adore  
My prospect at present looks gloomy  
And I fear i shall see you no more

2

My fortitude its all but Exhausted  
I sigh and Lament but's in vain  
My Country i fear has forgot me  
And i doubt if I see you again

3

Twelve Month's now I've Languish'd in prison  
Each moment seem'd a twelve month for me  
Columbia awake from your Slumber's  
We prisoner's are awaiting for thee

4

Expecting each day some glad tiding  
But nothing alas do we hear  
To languish and die in this prison  
Is my doom from above i much fear

5

Fond hope's keep's me still in Existence  
But misery makes me despair  
Oh Heaven's pray issue an order  
And say to the states now tell us prepare

6

Oh Bless<sup>t</sup> be that day should it happen  
My soul in what raptures would be  
I'd fly with the wing's of Impatience  
Till Columbia i landed on thee.

## New Year Song

Dartmore Prison January<sup>th</sup> 1 1815

The new year commences and nature sweet smiling  
 Salutes the blith nymph and the braw rustic swain  
 With prospects of pleasure the moments beguiling  
 And still the bound prisoner must unnoticed Remain  
 While round the rich Table the wine bumper's flowing  
 Enliven's each guest with new graces adorning  
 While hope cheer's the bosom with raptures all glowing  
 The war broken sailor and soldier must mourn  
 Behold the gay ball room adorn'd with mock Roses  
 Where Venus presiding bear's absolute sway  
 Where love her ten Thousand allurments diffuses  
 Where hosts of young cupids incessantly play  
 Where Notes of sweet music hail Cynthia arisen  
 And Hearts all Enchanted with tenderness burn  
 Shut out from enjoyments Lock'd up in a prison  
 The war Broken Sailor and Soldier must mourn  
 How fortune delusive her favour's disperses  
 How vain our fond hope's of her Bounty Appear's  
 While Thousand's enjoy her new sorrow Commence's  
 And naked and needy we hail the new Year  
 O soon may sweet peace her mild lucid Blessing  
 O soon may the morn of Freedom return  
 Hail Freedom and peace Joy's alone worth possessing  
 O Come and the Prisoner no longer shall mourn

## Love

Dearest Eliza what is Love? a dream  
 A passion often unrequested  
 An idle poets liting theme  
 A thing with which we are delighted

Whilst a prisoner in Quebec August 1813\*

1<sup>th</sup>

Adieu dear land where first I drew  
The sweets of Bliss surrounding  
Where neither pain nor Grief I new  
But alway's peace Abounding  
With eager wish those Groves I Trace  
And bar'd from there Returning  
And sigh to meet that Lovely face  
For which each hour I'm burning

2<sup>th</sup>

Green be thy plain's columbia dear  
And Green thy Lofty Mountain's  
Sweet roses every Valey cheer  
Where glow's the purling Fountain's  
While worn with Grief my heart endure[s]  
Sharp pang's and wild Commotion  
And till despair each hope obscure[s]  
As tempests cloud's the Ocean

3<sup>th</sup>

Dear to my soul are those lov'd form  
For which each hour I'm sighing  
No healing balm my Bosom cheer's  
Or save's my hope from dying  
Dear Lydia still my heart is your's  
Tho' distance doth divide us  
On you dear girl while life endur's  
I will doat tho' Ill's betide us  
A prisoner poor cut of in fight  
Confin'd from all enjoyment  
Doom'd through each dismal day and night  
And live without employment  
On Board a ship Moor'd off Quebec  
By Centinals Surrounded  
My home My Bed the prison deck  
My heart with anguish wounded

But soon I hope for sweet release  
In realm's of splendid Glory  
In scene's of Love in Bowers of peace  
Where glow's the blest aurora  
There i shall meet my kindred friends  
And gain Immortal Treasure  
Where war Terrific never end's  
In Interrupted pleasure

### A Poem

Composed by Joseph Valpey Jun<sup>r</sup> during his  
Imprisonment at Dartmoor in 1814

Come young people and now attend  
To what i'm going to write  
Its to your lives i'd have you amend  
And not your Creator for to slight  
And yet so long he has spared me  
For to live in this vain world  
And tossed up both too and fro  
And through this life for to be hurld  
Its i myself a prisoner Lay  
Confin'd in a prison strong  
From friends and Relation's far away  
I was forced wither right or wrong  
And it was there i lay bewailing  
On my unhappy state  
With many a bitter ailing  
Yet no remedy could make  
At dark when i to my bed did go  
For to pass the tegeous Night  
I would lay and think with bitter woe  
How i did my Maker slight

As I one Morn was walking  
 For to take the pleasant air  
 Two young men i heard a talking  
 It made me stop and for to stare  
 They were talking of a Lovly Bloom  
 Who in salem town did dwell  
 Who by cold Death was call'd to the Tomb  
 It appeard to shock them as they it told  
 I stepped up unto them  
 For to ask who this might be  
 They told me it was the lovly Hannah  
 That good and lovly she  
 Ah is the lovly Maiden gone  
 So soon after i left My home  
 I left her in the bloom of Life  
 For to struggle through this world of strife  
 O happy Maid thrice happy be  
 How soon after we shall follow thee  
 We no not when nor how soon  
 We shall be called to the silent Tomb  
 Fathers Mothers Sisters too  
 Brothers and Relations has bade us adue  
 And there they must lay with Closed eyes  
 Until the Lord bids them arise  
 Now i hope by this you may warning take  
 And no more Sabbath day's to Break  
 That we may all in tune be found  
 Like David's harp of solemn sound  
 Now May the Lord some pity take  
 On us poor prisoner's in this state  
 And move us to the happy shore  
 And live in peace forever more  
 Now i think its time to end my song  
 .... light is out and darkness comes on  
 .... that soon some pleasure may find  
 .... the race of humane kind

1<sup>th</sup>

You son's of Columbia that now ploughs the Ocean  
Come listen a while and i'll sing you a Song  
Concerning the Eagle the American Standard  
And Composd by a Sailor in a prison so Strong

2<sup>th</sup>

In dartmoor prison you son's of Commotion  
[I f]ear we are all doomed to the horror's of war  
[Bu]t our prow'd Bird the Eagle is sweeping the Ocean  
And claiming the rights of American tars

3

[Our] Eagle at home in the forest sat Amusing  
With her eyes like the hawk she discovered afar  
It was the British proud nation to drive from the Ocean  
the Sons of Columbia the American tar

4

so when she took wing on the sea Coast a hovering  
her Eyes full of vengence and Bright as the Stars  
She said to her heroes Commanding her Navy  
Go — defend all the rights of American Tar's

5

On the salt briney ocean our Eagle is a hovering  
Directed by Neptune Assisted by Mars  
Our Brave Constitution with fix't Ressionion  
Commenc'd all the rights of American tars

6

Our banners displayd on the ocean are flying  
Decator and Hull wear the Stripes and the Stars  
When the Battle of Champlain was won by M<sup>c</sup>Donald  
then England acknowledged the American tars

7

our Peacock and wasp are attached to the Eagle  
With Death in there Mouths breath Distress afar  
While the Reindeer and avon are sent to old davy  
Must acknowledg the valour of American tars

\*Cf. *The Dairy of Benjamin F. Palmer, privateersman, 1914* (pp. 289-290).

8

but our seamen Empressed in a Prison they are [dying]  
Saying beat foe's from our Coast drive your Enemies afar  
You ave ever Established for the American tar

9

but our bull dog's are Loose and roaring like Thunder  
Destruction and Vengence flies under those stars  
So give up those Seamen that you have Impressed  
And say you have Injured the American Tars

### The Disconsolate Sailor

1

When my Money was all gone that i gaind in the wars  
and the world 'gan to frown on my fate  
What matter'd my Zeal or my honoured Scar's  
when indifference stood at each Gate

2

the face that would smile when my purse was well lind  
Shew'd a different Aspect to Me  
and when that i could nought but Ingratitude find  
I hi'd once again to the Sea

3

I thought it unwise to repine at My Lot  
or to bear the Cold looks on the Shore  
So I pack'd up the trifling remains I'd got  
And a trifling alas was my Store

4

a handkerchief held all the treasures i had  
Which over My Shoulder i threw  
Away then I trudg'd with a heart rather sad  
to Join some Jolly Ship's Crew

5

the Sea was less troubled by far then My Mind  
for when the wide Main I Survey'd  
I could not helping the world was unkind  
And fortune a Slippery Jade

6

And i vowed if once more i could take her in tow  
I'd let the ungreatful one see  
that the turbulent winds and the billows could show  
More kindness than they did to ME

**By Joseph Valpey Jun<sup>r</sup> During His Imprisonment  
At Dartmoor, Devenshire, England March <sup>the</sup> 10—1815**

1

I tel thee sweet Girl could I time retrieve  
and could again begin to Love and Live  
to you i would My earlyest off-rings give  
I know my Eye's would Lead my heart to you  
And I should all my oaths and vows renew  
And to be plain I never would be true

2

For by our weak and weary truth i find  
Love hates to center in a point assignd  
But run's with Joy the Circle of the Mind  
Then never let us chain what should be free  
But for relief either sex agree  
But women loves to Change and so do we

**A Song by the Same**

1

I've known what 'tis to face a foe  
Where death has laid his hundred's Low  
What 'tis fatigues to undergo  
that might appall our Nature  
Yet never was a truth more clear  
that man's in danger — Least in fear  
Who's heart can shed a generous tear  
to relieve a fellow prisoner

2

I've seen stout hearts of whom one wave  
 has in a moment made a Grave  
 Who's lives not all the World Could save  
     then things affect our Nature  
 But not so much as when the heart  
 Some ray of Comfort to Impart  
 Swells up a generous tear to Start  
     to relieve a fellow prisoner

### A Song

the Author when he was Expecting daly for to get  
 Released from his Imprisonment Compos'd the following  
J Valpey Jr

The heavy hour is almost past  
 That part my Love and Me  
 My Longing eyes may hope at Last  
 There only hope to see

But how my Lydia will you meet  
 The man you've Lost so long  
 Will love in all your pulses beat  
 And tremble on your Tongue

Will you in Every Look declair  
 Your heart is still the same  
 And heal each Idle anxious care  
 Our fears in absence fraim

Thus Lydia thus i paint the scene  
 When shortly we shall meet  
 And try what yet remain's between  
 Of Loit'ring time to Cheat

But if the dream that sooths my mind  
 Shall false and Groundless prove  
 If I am doom'd at Length to find  
 You have forgot to Love

All i of Venus ask is this  
 No more to Let us Join  
 But grant me here the flattering Bliss  
 To live and think you no more mine

6

Ye cursed tribe of dartmoor attention pray now give  
You know when Yankey Tar's are gone you Cannot cannot live  
for Murder then you will commit and robberies also  
Until like Convict's you are sent to Botany bay must go

7

Make no delay but send us of I tell you for your good  
That we may once return again and Bring you back some food  
Not you alone but many to keep' you from a Starvation  
for Yankey's they have allway's fed your proud Infernal Nation

8

Our President has sent for us' so do not us detain  
For fear that he should war declare & Your honour blast again  
Do not Blockade the ports of France of Holland or of Spain  
For fear the Wasp and Constitution should visit you again

9

I pray you'll give attention and strive to learn my song  
as it will be of use to you when Yankey tars are gone  
It will remind you of your Living the like you ne'er had before  
Nor never will again till we return to Dartmoor

10

No never then shall we return' itts mark now what I say  
Until Columbia flag no more shall triumph on the sea's  
But until then free Trade' and Sailors righth shall wear  
And our Gallant Independence the saucy flag shall Bear

11

I hope that you will attend on some appointed day  
And pay respect to Yankey's before we go away  
You know it your duty you cannot well deny  
So mind and pull your hats off when Yankey's shall pass [by]

12

Fare well you sharks of dartmoor the day at length arrives  
Behold the Yankey's marching with tears all in your eyes  
Adieu my loving Countrymen that behind the wall's do lay  
But your scotch and Irish Doctors no more of us shall slay

13

The happy day will soon arive to sail for Freedoms shore  
With six thousand hearty fellow's I think there is no more  
The high Lands of Neversink they now appear in sight  
The Narrow's next we pass' where we Anchor for all Night

14

Next morning we'll get under way and next our Yards do man  
...Cheer those sons of Liberty before that we do land  
[Th]en free Trade and Sailors then every Tongue shall cry  
[Wh]ile at our foremast head the very flag shall wear

Sacred to the Memory of Josiah Gwinn

Go spotless honour and unsullied Truth  
Go smiling Inocence and Blooming youth  
Go Male sweetness Join'd in Manly sence  
Go winning wit that never gave offence  
Go soft humanity that Blest the poor  
Go saint eye'd patience from afflictions door  
Go Modesty which never gave a frown  
Go Virtue and receive thy heavenly Crown  
Not from a stranger came this heart felt verse  
Thy Friend inscribes thy Tomb Where tears  
Bedewd thy hearse

The  
Description of Dartmoor Prison Devonshire  
and the  
British Massacre on the sixth of April A.D. 1815  
by a  
Prisoner of War.

**D**ARTMOOR DEPOT is situated in the county of Devonshire\* and lies about 15 miles N E of plymouth and 26 miles W N W of exeter the capital town, its appearance and Situation is most unpleasant and disagreeable imaginable, the country around as far as the eye extends is one uneven barren and dreary waste, not a tree Shrub or scarce a plant is seen for many miles around, here and there appears a miserable thatched Cottage whose outward appearance bespeaks the misery and poverty within, here no cheering prospect greets the prisoners eye, bountiful nature here denies all her sweets and seems to sympathize with the unhappy Prisoner the loss of every joy that renders life worth preserving, the climate here is rather unhealthy, the prisoners here are almost allways afflicted with colds and severe pains during 9 months in the year, owing most probably to its height, it being upwards of 1700 feet above the surface of the sea, this Depot consists of 7 Prisons each calculated to contain from 11 to 1,500 men who are under the care of an agent, appointed by and under the controle of the transport board, here are stationed as gaurds upwards of 2000 well disaplined malitia & 2 companies of royal Artillary, the Prisons are all strong built of stone and are surrounded with 2 circular walls, the outward wall measures one mile in circumference and on the inner wall is a military walk for Centinels, within this wall distance about 20 feet are, Iron pallisadees about 10 feet high, adjoining the outward wall are gaurd houses placed N. E. and South there are 3 sepperate gards which communicates with each other through the passage of about 150 feet long & 20 broad gaurded on each side by Iron bars, over which and fronting N<sup>o</sup> 4 is a military walk for centinals, oposite the passage is the market square in passing into either yard you pass through 2 Iron gates so that all communication may be stopped at pleasure, which is often done to annoy and vex the Prisoners, in the first yard there contains three prisons N<sup>o</sup> 1. 2. 3 N<sup>o</sup> 1 & 3 are only occupied by the American Prisoners, and N<sup>o</sup> 2 stands empty, in the other yard N<sup>o</sup> 5 & 7 also are occupied, and N<sup>o</sup> 6 stands empty, and N<sup>o</sup> 4 for the blacks, the inside of the prisons presents a melancholy and disagreeable aspect and one would imagine they were calculated for cattle rather than the human species, North of no. 1 between the inner wall and Iron railing, stands the condemned Prison, this is a

\*This account of the Dartmoor massacre, copied by another hand at the close of Joseph Valpey's *Journal*, was evidently used by Edgar S. Maclay in his *History of American privateers*, (1899 ed., p. 367). It has not been found printed in any of the books on this subject which are available for consultation.

place of punishment for various offences committed by individuals, four persons having been condemned by the government to suffer imprisonment during the war, for attempting to blow a Prize up, this Prison is calculated to contain 60 persons who are allowed a blanket & straw instead of their ordinary bedding, their daily allowance is considerably reduced, a small aperture near the roof admits the light fronting N<sup>o</sup> 1 yard is a wall separating it from the Hospital, and fronting the other yard is another wall separating it from the inner barracks, the market which fronts the passage leading from one prison to the other, is nearly square, and will contain nearly 5000 persons, and is allowed to be opened every day except Sundays at eleven o'clock and closed at one, and is productive of no small profits to the country people, at the upper part of the square, are two stone houses, one for Kings and the other for Prisoners stores, the other buildings attached to this depot are houses for turnkeys and clerks, one for the agent and one for the Doctor; to enter either of the Prisons yards from without, you must pass through 5 gates, fronting the outer gate is a reservoir of water, which is brought the Distance of 6 miles by means of a canal which supplies the different yards with water; the Hospital is under the superintendence of a Physician who has 2 assistant Doctors, George Magrath the present superintendant, is a gentleman of Eminence and skill in his profession, and will ever be remembered by the American Prisoners. with esteem and respect, the sick have uniformly received from him every attention that delicacy and humanity could dictate, at this time there are 5600 prisoners in this depot, nearly one half of whom are men who have been impressed in his majesties service prior to the war, many hardships have been suffered by the Prisoners more especially in the year 1813 which was exceeding cold and severe, although excessively cold and many of the Prisoners almost naked, no fire was allowed, nor cloathing served to protect their shivering limbs and half famished bodies from the inclemency of the weather, it must be observed that the prisoners at that time received no assistance from their Government and many of them had been robbed or plundered of their cloathing whereby by the time winter commenced were little short of nakedness — in april following they received from their inexorable agent M<sup>r</sup>. Beasley a suit of cloathing and 2½ p<sup>r</sup>. Day, which sum tho' small was a great relief, the prisoners on many occasions have received very injurious and harsh treatment from the Governor of the Depot, having allways endeavored to curtail

them of the smallest liberty or indulgence, the recent Massacre which took place by his order ought forever to stamp the name of Thomas George Shortland with cowardice, Barbarity Infamy & disgrace, his name will never be mentioned by a single American Prisoner but with sentiments of detestation horror and contempt ———

On the 6<sup>th</sup> day of April 1815 as a small party of prisoners were amusing themselves at a game of ball, some one of the number striking it with too much violence it went over the wall fronting the prison the Centinals on the opposite side of the same were requested to heave the ball back, but refused, on which the party threatened to brake through and regain the ball and immediatly put their threats in execution, a hole was made in the wall sufficiently large enough for a man to pass through, but no one attempted it, soon after the alarm bell rung and the military beat to arms the prisoners surprised at the alarm run into the Passage opposite the market, when appeared Captain Shortland at the head of about 500 of the Malitia, the front rank of whom were ordered to fire, and soon after the rear done the same, with considerable execution and persued the Prisoners to the yards, the Scenes of barbarity and horror which were witness'd on this Day are indiscrivable, 9 were killed and 38 were wounded, six of whom lost their legs and arms, and many others severely wounded; a man by name John Washington being wounded and overtaken by the military begged for his life but those Ruffians deaf to the voice of pity, deliberately pointed their muskets within six inches of his head and blew his brains out, a young lad aged fourteen was run through the body by an officer of the military, many other instances of the most savage barbarity took place on this fatal day scarce a single person that was thus persecuted knew the cause thereof: ——— Captain Shortland endeavours to justify his conduct by saying the prisoners were attempting to break out so far from that being the case the prisoners were in momentary expectation of being drafted on board Cartels, and had the prison gates been thrown open, scarce a single person of five thousand would have left the Prison; it is a notorious fact that Capt. Shortland has long sought a plausible pretext to glut his revenge and hatred against men whose principles and manners are so incongruous with those of his countrymen in general

---

The 6<sup>th</sup> of April will long be remembered with emotions of horror and grief by every American Prisoner, with horror at the

savage furocity of the military headed by Capt. Shortland; with grief at the untimely Death of their unprotected and defenceless Brethren; ——— w[h]ere ye britons on that day was your boasted valour,,, ——— was it displayed in your wanton attack on a few defenceless men;—w[h]ere was your vaunted generosity and clemency was it in opening the Prison doors and discharging Vollies of musketry at the prisoners within, where was the amity and Friendship so lately pledged by your government: ——— was it shewn in wantonly murdering those brave and unfortunate men who had been struggling for their rights: ——— where sleeps the sword of justice, that should revenge our wrongs: ——— behold the assassin beneath the protection of despot Tyrants, securely triumph and bid defiance to Justice; Oh Shame where is thy blush; oh cowardice where is thy confusion ——— but know ye bloody butchers of our slaughtered countrymen that millions of free born sons of liberty, shall ere long revenge their murdered Brethren, Ere long shall the avenging Sword of justice leap from its scabbard and bid defiance to tyranny and oppression

Farewell ye unfortunate friends who fell untimely victims of barbarity, no more shall you be partakers of our joy, or the pleasing companions of our social hours, no more shall the musick of festivity or the welcome embrace of those you held most dear, dilate your hearts with joy, or attune your souls to harmony and love, farewell ye murdered brethren; the innocent victims of inhuman assassins, Peace in vain extended her cheering olive, in vain did justice Humanity or mercy plead in your behalf. ——— in vain did you beg for a moment to prepare yourselves for eternity Ye tender and affectionate Parents who are now anticipating the happy return of your affectionate children how will the cup of anticipated bliss be dashed to the ground when you receive the fatal news of their untimely Deaths; no more shall the musick of their voices sound delightful to your ears; no more shall their affectionate regards reward the parental care of their early youth; well may ye curse the destroyers of your happiness, the butchers of your sons

Ye disconsolate and unprotected widows who with fond Solicitude are awaiting to welcome and press to your affectionate hearts the partners of your bosoms; how will your hearts throb with anguish and your bosoms fill with woe when the tale of horror is repeated and their loss confirmed

Behold the Widows arms extended to embrace the dear pledges of their mutual loves while they in lisping accents in

vain repeat the name of Father, ye helpless orphans babes, no more shall ye receive the tender caresses of your affectionate father, no more shall ye be dandled on the Knee or receive from his glowing lips the kisses of Paternal affection, Ye sons of Columbia the Blood of your slaughtered countrymen Cries to you from the ground avenge our Deaths —————
